

Job Description

PCI DSS QSA – Consultant opportunity

Founded in 2007, Razorthorn has been delivering expert security consulting and testing services to some of the largest and most influential organisations in the world, including many in the Fortune 500. The company has a single purpose: to defend business-critical data and applications from cyber-attacks and internal threats.

Our Services

- Strategy policy and awareness
- On-demand virtual roles
- Data discovery and mapping
- Risk advisory and assurance
- ISO 27001 consultancy
- PCI DSS QSA
- Incident response handling services
- Cyber/information security reviews

The Opportunity

Razorthorn are looking for an experienced, talented information security professional to join the team to assist in the delivery of high quality consultancy and advisory to its client base, specifically geared towards the delivery of PCI DSS advisory.

Candidates must be a fully qualified QSA of good standing for an existing QSAC or have undertaken that role recently within the last three years. Candidates must at least display the minimum qualifications required to become a QSA and have not in the past been struck from the QSA register.

Skills Required

This role is wide and varied but at minimum the role will require the following experience:

- You will be proficient in working in areas such as NIST, SANS, PCI DSS and ISO 27001. You will have the ability to deliver projects within time and in budget and to a high level of customer satisfaction, exercising customer care at all times.
- You must demonstrate a strong ability to develop a rapport with customers and to engender long lasting trusted relationships to the benefit of both Razorthorn Security and our clients.
- At least 3 years certification as a PCI DSS QSA, demonstrable experience conducting PCI DSS audits including completion of relevant documentation (RoC and gap analysis) both onsite and remote audits.

- Have strong business, consultancy and technical skills within the information security industry.
- Excellent communication, consulting soft skills and presentation skills.
- Exceptional written communication and reporting skills.

The following list of additional attributes would be advantageous:

- Excellent attention to detail and documentation
- Incident response handling
- Multiple risk frameworks and methodologies
- Legal knowledge with regards to cyber security law / issues
- Full UK driving license and own transport
- Customer facing experience at senior levels

What we offer:

Razorthorn is going through an exciting period of growth and we work with high profile clients in a diverse and interesting landscape. This is a great opportunity to join a fast paced, entrepreneurial and trusted company.

Benefits

- Health insurance
- Company contributed pension
- Flexible working locations (WFH/office, unless required on a client site)
- 28 days holiday per year, plus bank holidays

To apply, please send your CV with a covering letter to office@razorthorn.com.
