- ✓ Advisories and reports on your compliance requirements
- ✓ Clear, board level reports that are jargon free and in depth
- ✓ Recommendations and support on all remediation actions
- ✓ PCI DSS assessments to meet full compliance requirements

OVERVIEW

PCI DSS compliance is a critical requirement for organisations that handle sensitive payment card information, ensuring the protection of customer data and mitigating the risk of data breaches and financial losses. However, achieving and maintaining PCI DSS compliance can be a daunting task, given the complexity of the standards and the ever evolving landscape of cybersecurity threats.

Our PCI DSS compliance service is designed to help you navigate this process effectively. With our expertise in the cybersecurity industry and years of experience working with some of the largest European organisations, we offer a comprehensive solution tailored to meet your unique business needs.

PCI DSS compliance an ongoing commitment. Our approach goes beyond simply achieving initial compliance; we work closely with our clients to ensure they maintain a robust security posture and stay ahead of emerging threats. Our team of experts provides guidance and support throughout the entire compliance lifecycle, from initial assessments and gap analyses to implementing necessary controls, conducting audits, and providing ongoing monitoring and reporting.

THE RAZORTHORN APPROACH

Our approach is designed to simplify the process while ensuring that your business objectives remain at the forefront. We take a pragmatic and tailored approach, creating PCI DSS compliance strategies that are minimally intrusive and cost effective, without compromising the stringent requirements of the standard.

Our team of experienced consultants is adept at navigating even the most intricate compliance challenges. From small businesses to large enterprises with particularly complex environments, we have successfully guided countless clients through the compliance journey, ensuring that their sensitive data remains secure and their operations remain uninterrupted.

Razorthorn's commitment to excellence and professionalism has not gone unnoticed. We take pride in having been recognised by Gartner as a market leader in the delivery of our PCI DSS Qualified Security Assessor (QSA) services. This accolade is a testament to our unwavering dedication to providing quality consultancy that meet the highest industry standards.

RECOGNISED BY **Gartner** FOR EXCELLENCE IN PCI DSS
